CRKN License Renewals 2010-2012

The Canadian Research Knowledge Network (CRKN) has completed negotiations with 15 scholarly publishers for three-year license renewals, valued at approximately \$140 million (CAD), on behalf of CRKN's 73 university members. These agreements represent two groups of renewals: (1) licenses that were originally implemented in 2007 as a major content expansion in humanities and social sciences content, and (2) licenses that were first implemented in 2001 during CRKN's pilot phase, and are now into an expanded fourth cycle of license renewals.

These agreements leverage members' own institutional funds in order to secure advantageous national terms and conditions, and are not dependent on external grant funding.
